

General note:

- Cladding fixings omitted for clarity
- When finishing a wall with a ripped board, the board must be direct fixed with a counter sunk screw @ 600mm centres

Cavity batten note:

- 20mm timber battens required for all Nu-Wall horizontal board installations
- Batten to have 15° slope for moisture egress
- Battens to all internal, external corners, jambs, and sills to be sized to 18mm to accommodate flashing build up
- 20 and 18mm single castellated battens are available directly from Nu Wall
- Proprietary Nu-Wall AliBat is available as an alternative when a structural non-combustible batten is required

Nu-Wall cladding horizontal on cavity
Typical Nu-Wall to concrete masonry vertical junction
